8 to 9 a.m.**Registration, welcome and vendor networking****8 to 5 p.m.****Demo** **SimSpray® Virtual Reality Painting Simulator.**

Got 20 minutes? Stop by the conference room to see how virtual reality spray painting builds skill before painters enter the spray booth.

9:15 to 9:45 a.m.**Seminar****In-House Powder Coating: Smart, Seamless Integration.**

Garrett Armstrong details how ICAFe Companies helps manufacturers bring powder coating in-house with scalable solutions that reduce outsourcing and improve quality and cost control.

10 to 10:30 a.m.**Seminar****Cobots and the Future of Industrial Automation.**

Explore how collaborative robots (cobots) are reshaping manufacturing, working safely with teams to boost efficiency and meet evolving production needs. Presented by Chris Sparks from FANUC.

10 to 10:30 a.m.**Workshop****Air Spray Gun Care: Stellar!**

Discover how proper rebuilds improve transfer efficiency, minimize overspray, and maintain peak performance.

10:45 to 11:15 a.m.**Seminar****Accelerated Curing: REVO Infrared Innovation.**

REVO infrared technology speeds up curing, boosts throughput, and cuts energy use - without overhauling your paint line. Ryan Looker from Global Finishing Solutions shares how.

11 to 11:30 a.m.**Workshop****Pump Lower Quick Fix: Sames 15C25 Alrimix®.**

See how easy it is to keep productivity high and downtime low with quick pump lower servicing.

11:30 a.m. to noon**Seminar****ProMix V: Next Generation Mixing for Sustainable Efficiency.**

Explore how to reduce waste and solvent use — with the data to prove it. Mike Moe from Graco, explains how the new ProMix V supports efficient, sustainable operations.

noon to 1 p.m.**Lunch****1 to 1:30 p.m.****Seminar****Smart Electric Paint Kitchen.**

Dan Purkat from Binks discusses ways to improve process control, from the industrial paint kitchen to the robot in your spray booth or paint line.

1:30 to 2 p.m.**Workshop****Manual Spray Gun Rebuild: Binks Trophy and DVX.**

Learn how to restore performance and extend the life of two popular spray guns.

1:45 to 2:15 p.m.**Seminar****Cyclomix® Evo + PPH707 = Fast Fine Finishing.**

Wayne Blackwell from SAMES shows how the Cyclomix® Evo and the PPH707 rotary atomizer team up to bring fast color changes and high quality finishes to automated paint lines.

2:30 to 3 p.m.**Seminar****Table Blasting for Prepping Parts.**

Learn how Empire Abrasive Equipment's advanced table blasters prep parts — cleaning, deburring, peening, and finishing everything from delicate gears to heavy fabrications.

3:15 to 3:45 p.m.**Seminar****Powder Coating Efficiency: Proven Strategies for Better Results.**

Todd Wilken from Wagner highlights ways to improve transfer efficiency and streamline powder coating processes — helping you get more from every batch.

3:45 to 4 p.m.**Networking and closing**
